

Omegamed Optima Start

Capsules

Dietary supplement.

Product for women planning pregnancy and in the first months of pregnancy.

Omegamed® Optima START is especially for women planning pregnancy and in the first months of pregnancy. Designed in partnership with specialists, Omegamed® Optima START provides your daily dose of ingredients vital for the proper development of brain and eyes in foetus and breastfed infants.

Omegamed® Optima START contains recommended ingredients in unique combination:

1. DHA from algae (Life's DHA®): 200 mg
2. Complex source of folates ActiFolin®: folic acid (400 µg) + active form of folic acid (400 µg)
3. Vitamin D: 2000 i.u.
4. Iodine: 200 µg

Omegamed® Optima Start doesn't contain fish oil thanks to which the product is well-tolerated and doesn't intensify nausea.

* Health claim: „Consuming of docosahexaenoic acid (DHA) by mother supports proper development of brain and eyes in foetus and breastfed infants”. Beneficial effect appears in case of consuming 200 mg of DHA daily over consuming of omega-3 fatty acids for adults, i.e. 250 mg of DHA and eicosapentaenoic acid (EPA).

Varied diet and healthy lifestyle are important to stay healthy.

Content:

Ingredients: capsule content: oil from microalgae *Schizochytrium* sp. containing DHA (docosahexaenoic acid) [algal oil; high oleic sunflower oil; flavouring; antioxidants: tocopherol-rich extract, fatty acid esters of ascorbic acid]; thickener: mono- and diglycerides of fatty acids; emulsifier: lecithins; cholecalciferol (vitamin D); glucosamine salt of (6S)-5-methyltetrahydrofolate (folic acid-active form); pteroylmonoglutamic acid (folic acid); potassium iodate (iodine). Capsule shell: gelatin; humectant: glycerol; colour: iron oxides and hydroxides.
