

SUNDOVIT Vitamin D3 FORTE 2000 IU

Dietary supplement.

Soft capsule

Vitamin D belongs to a group of vitamins which dissolve in fats so to ensure the highest quality, we prepared our product in the form of soft capsules. The liquid fatty filling "Liquid formula" ensures proper absorption of vitamin D dissolved in it.

Vitamin D helps keep bones and teeth healthy. It supports proper functioning of muscles and the immune system. It aids the absorption and use of calcium and phosphorus and preserving the proper level of calcium in blood. Vitamin D play an important role in the process of cell division.

Varied diet and healthy lifestyle are important to stay healthy.
