

Cardimax

Dietary supplement.
Tablets.

Cardimax tablets contain hawthorn commonly known to support the cardiac system, control of high blood pressure and high cholesterol. Both animal and human studies suggest hawthorn increases coronary artery blood flow, improves circulation, and lowers blood pressure. Vitamin B1 helps in proper functioning of the heart and B6 supports production of erythrocytes responsible for transport of oxygen in the body.

Varied diet and healthy lifestyle are important in maintaining physical health and well-being.

Content:

Ingredients: magnesium complex: magnesium carbonate, magnesium bisglycinate; bulking agent: cellulose; flower extract from hawthorn (*Crataegus laevigata* (Poir.)
